

1 ONE

Download the Project EV Pro App from the Apple Store or Google Play store.

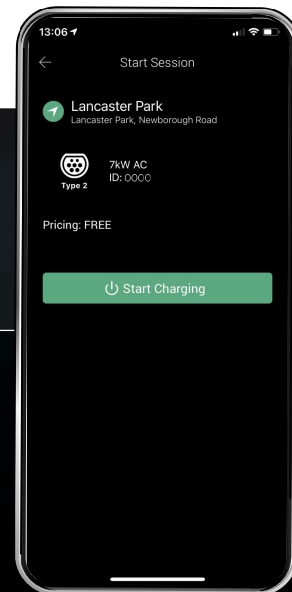

2 TWO

In the Project EV Pro App scan the QR code or enter the numeric ID for the EV charge point you want to use.

3 THREE

Manage your charging session in the Project EV Pro App.

Please ensure that in step 2 you scan the unique QR code or input the EVSE ID number that's situated on the side of your charger.

Charging

Check emergency stop button
